DODSON KILLING USE OF CALOMEL

Says Drug is Mercury and Acts Like Dynamite on Your Liver

Dodson is making a hard fight against calomel in the South. Every druggist has noticed a great falling off in the sale of calomel. They all give the same reason, Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

CARRIED TO DEATH IN NIAGARA FALLS

Niagara Falls, N. Y., Aug. 30.—Edward H. Rippon, of Buffalo, was swept over the Bridal Veil fall at Niagara yesterday afternoon and dashed to death on rocks below. The body was recovered.

Rippon's skull was fractured when he fell head first on the big rocks at the base of the falls. The body then passed out 20 feet and became wedged between two rocks in Small Rapids, near the Cave of the Winds. E. R. Waldenberger, reservation superintendent, and Harold Wright, made a bridge of planks between two big rocks, crawled out on the planking, secured and rescued the body with ropes and drew it slowly back to solid ground. It was a hazardous feat with the waters of the cataract thundering about the rescuers.

Hundreds of tourists watched from the upper shores as the man struggled to recover the body.

A note left by Rippon told of a will he had made disposing of his property. It gave no hint as to the motive for suicide except that it proclaimed the writer's innocence of

something of which he evidently believed he had been accused in connection with his work in the railway mail service. Officials of this service said last night that they had heard of no charges against Rippon. He had been ill for two weeks, they said.

"Standard" Motor Gasoline has remarkable pulling Power

GASOLINE that delivers full power and maximum mileage is not the product of chance but of the choice of crude stocks, skillful refining and constant research.

Gasoline properties are determined by a large number of factors. It is only by the closest study that the exceptional pulling power of the improved "Standard" Motor Gasoline is obtained. Our Development Department not only devotes a large share of its work to refining processes, but is also constantly checking up the actual performance of "Standard" Motor Gasoline in various types of motors, in the laboratory and out on the road.

The power obtainable from gasoline depends largely on its burning properties, on how much of it fires and how much fails to ignite, thus lowering the explosive force of the whole mixture. The composition of "Standard" Motor Gasoline is positively predetermined with a view to insuring its complete combustion at motor temperatures.

Thousands of critical motorists have given this "Standard" Motor Gasoline a thorough test under all sorts of conditions. They say that it supplies an unusually even, smooth flow of power, and gives exceptional mileage.

"Standard" Motor Gasoline is on sale wherever you see the familiar "S.O." sign. It is the cheapest gasoline per mile you can find.
